Q6. What should be the FOURTH sentence after rearrangement?

- (a) F
- (b) A
- (c) B
- (d) C
- (e) D

Q7. What should be the THIRD sentence after rearrangement?

- (a) D
- (b) A
- (c) B
- (d) C
- (e) F

Q8. What should be the LAST sentence after rearrangement?

- (a) F
- (b) C
- (c) B
- (d) E
- (e) D

Q9. What should be the SECOND sentence after rearrangement?

- (a) F
- (b) B

- (c) C
- (d) D
- (e) E

Q10. What should be the FIRST sentence after rearrangement?

- (a) B
- (b) D
- (c) E
- (d) A
- (e) C

Directions (11-15): In the following questions, a word is given in bold followed by three sentences. Choose the appropriate option mentioning the sentence(s) that uses the highlighted word in a grammatically correct and contextually meaningful manner.

Q11.

Carnage

- (I) Carnosaurs represent the largest **carnage** animals to ever walk the land.
- (II) The SIT was formed to examine the record in 186 cases relating to the **carnage** that took place in the aftermath of Indira Gandhi's assassination.
- (III) Some of the Gurdwaras in Delhi have pictures of the victims of the **carnage**.

- (a) Only (I)
- (b) Only (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) Both (I) and (III)

Q12.

Glimmer

- (I) There is little doubt that the development offers a **glimmer** of hope to the victims of 1984
- (II) The colleague then **glimmer** the experimenter of the participant number and resealed the envelope.
- (III) The cell theory states that cells are the basic unit of **glimmer** and function of living things.

- (a) Only (I)
- (b) Only (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) Both (I) and (III)

Q13.

Instigate

- (I) They want to **instigate** more recycling, as well as reduction and reusing, while offsetting the carbon footprint

(II) A distinct pattern is beginning to emerge in the disconnection between the words and deeds of the **instigate**.

(III) Separatists, terrorists and Pakistan's Army made attempts on social media to **instigate** people for 'jihad'

- (a) Only (I)
- (b) Only (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) Both (I) and (III)

Q14.

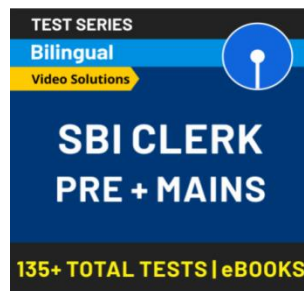

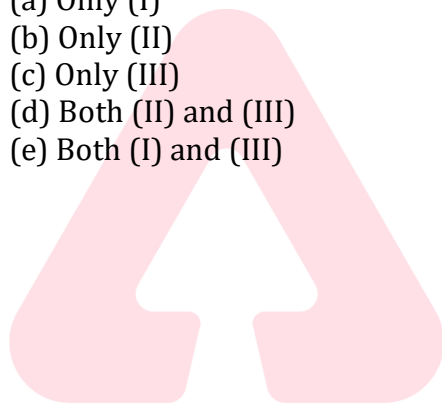

Scrutinize

(I) The complete study of ATP generation is called cellular respiration, and **scrutinize** of three main stages.

(II) If more oxygen gas is added to the system, the **scrutinizing** of oxygen will increase.

(III) After concentrating on the energy industry, policymakers now are **scrutinizing** buildings as a major source of pollution.

- (a) Only (I)
- (b) Only (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) Both (I) and (III)

Q15.

Scuttle

(I) The suspicion is that those redrafting the **scuttle** were influenced by borrower governments to weaken policy requirements.

(II) The management deferred the payment deliberately to **scuttle** the strike.

(III) The **scuttle** document deals with waste minimisation, recycling and energy recovery.

- (a) Only (I)
- (b) Only (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) Both (I) and (III)

Solutions

S1. Ans. (a)

Sol. The correct option is option (a)

S2. Ans. (d)

Sol. The correct option is option (d)

S3. Ans. (c)

Sol. The correct option is option (c)

S4. Ans. (b)

Sol. The correct option is option (b)

S5. Ans. (c)

Sol. The correct option is option (c)

S6. Ans. (a)

Sol. The correct sequence is CDBFAE

(C) Cholesterol is made in the liver.

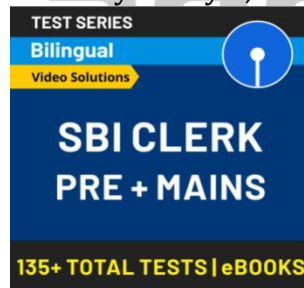

(D) Like fat, cholesterol also doesn't dissolve in water.

(B) It is transported by molecules called lipoproteins, which helps in carrying fats, cholesterol and fat-soluble vitamins in the blood.

(F) Different types of cholesterol have a different effect on the body for an E.g. high level of LDL (Low-density lipoprotein) can lead to heart problems like clogged arteries, stroke or heart attack.

(A) Whereas, a high level of HDL (High-density lipoprotein) helps in carrying away cholesterol from blood vessels and prevent heart diseases.

(E) Dietary cholesterol has less influence on total cholesterol in the body, whereas the other foods in your diet, family history, sedentary lifestyle, and smoking worsen it.

S7. Ans. (c)

Sol. The correct sequence is CDBFAE

(C) Cholesterol is made in the liver.

(D) Like fat, cholesterol also doesn't dissolve in water.

(B) It is transported by molecules called lipoproteins, which helps in carrying fats, cholesterol and fat-soluble vitamins in the blood.

(F) Different types of cholesterol have a different effect on the body for an E.g. high level of LDL (Low-density lipoprotein) can lead to heart problems like clogged arteries, stroke or heart attack.

(A) Whereas, a high level of HDL (High-density lipoprotein) helps in carrying away cholesterol from blood vessels and prevent heart diseases.

(E) Dietary cholesterol has less influence on total cholesterol in the body, whereas the other foods in your diet, family history, sedentary lifestyle, and smoking worsen it.

S8. Ans. (d)

Sol. The correct sequence is CDBFAE

(C) Cholesterol is made in the liver.

(D) Like fat, cholesterol also doesn't dissolve in water.

(B) It is transported by molecules called lipoproteins, which helps in carrying fats, cholesterol and fat-soluble vitamins in the blood.

(F) Different types of cholesterol have a different effect on the body for an E.g. high level of LDL (Low-density lipoprotein) can lead to heart problems like clogged arteries, stroke or heart attack.

(A) Whereas, a high level of HDL (High-density lipoprotein) helps in carrying away cholesterol from blood vessels and prevent heart diseases.

(E) Dietary cholesterol has less influence on total cholesterol in the body, whereas the other foods in your diet, family history, sedentary lifestyle, and smoking worsen it.

S9. Ans. (d)

Sol. The correct sequence is CDBFAE

(C) Cholesterol is made in the liver.

(D) Like fat, cholesterol also doesn't dissolve in water.

(B) It is transported by molecules called lipoproteins, which helps in carrying fats, cholesterol and fat-soluble vitamins in the blood.

(F) Different types of cholesterol have a different effect on the body for an E.g. high level of LDL (Low-density lipoprotein) can lead to heart problems like clogged arteries, stroke or heart attack.

(A) Whereas, a high level of HDL (High-density lipoprotein) helps in carrying away cholesterol from blood vessels and prevent heart diseases.

(E) Dietary cholesterol has less influence on total cholesterol in the body, whereas the other foods in your diet, family history, sedentary lifestyle, and smoking worsen it.

S10. Ans. (e)

Sol. The correct sequence is CDBFAE

(C) Cholesterol is made in the liver.

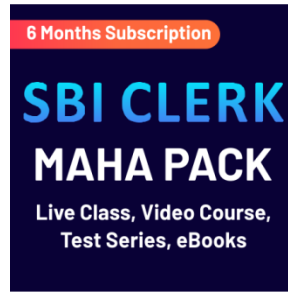

(D) Like fat, cholesterol also doesn't dissolve in water.

(B) It is transported by molecules called lipoproteins, which helps in carrying fats, cholesterol and fat-soluble vitamins in the blood.

(F) Different types of cholesterol have a different effect on the body for an E.g. high level of LDL (Low-density lipoprotein) can lead to heart problems like clogged arteries, stroke or heart attack.

(A) Whereas, a high level of HDL (High-density lipoprotein) helps in carrying away cholesterol from blood vessels and prevent heart diseases.

(E) Dietary cholesterol has less influence on total cholesterol in the body, whereas the other foods in your diet, family history, sedentary lifestyle, and smoking worsen it.

S11. Ans. (d)

Sol. **Carnage** means **the killing of a large number of people; Slaughter, Massacre, Mass murder, Mass destruction, Butchery**. In this way, option (d) **(II) and (III)** use **Carnage** in grammatically correct and contextually meaningful manner.

S12. Ans. (a)

Sol. **Glimmer** means **Shine faintly with a wavering light; Gleam, Glimmering, Flicker, Ray**. In this way, option (a) **(I)** use **Glimmer** in grammatically correct and contextually meaningful manner.

S13. Ans. (e)

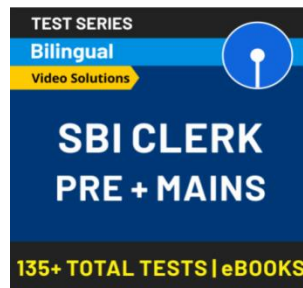

Sol. **Instigate** means **Bring about or initiate an action or event; Incite someone to do something, especially something bad**. In this way, option (e) **(I) and (III)** use **Instigate** in grammatically correct and contextually meaningful manner.

S14. Ans. (c)

Sol. **Scrutinize** means **Examine or inspect closely and thoroughly; Inspect, Survey, Scan, Study, Look over**. In this way, option (c) **(III)** uses **Scrutinize** in grammatically correct and contextually meaningful manner.

S15. Ans. (b)

Sol. **Scuttle** means **'To move quickly, with small, short steps, especially in order to escape; Hump, Hurl, Hurry.'** In this way, option (b) **(II)** uses **Scuttle** in grammatically correct and contextually meaningful manner.
