

Weekly One Liners 13th to 19th of January 2025

Smartphones to Laptops: India's IT Revolution

In a landmark development for India's electronics manufacturing sector, **Union Minister Ashwini Vaishnaw inaugurated Syrma SGS Technology's advanced laptop assembly line in Chennai.** This new facility symbolizes **India's growing dominance in IT hardware production, expanding its success in mobile manufacturing to high-value electronics like laptops.** With initiatives under the Production Linked Incentive (PLI) 2.0 scheme, India is taking significant steps towards becoming a global IT hardware hub.

Key Highlights of Assembly Line

- **Location:** Madras Export Processing Zone (MEPZ), Chennai.
- **Production Capacity:** Initially 100,000 laptops annually, scalable to 1 million within 1-2 years.
- **Global Collaboration:** Partnership with Micro-Star International (MSI), a Taiwanese tech giant.
- **Employment Impact:** Estimated creation of 150-200 specialized jobs by FY26.
- **Quality Standards:** Laptops produced will meet global benchmarks for quality and innovation.

India's Electronic Manufacturing Growth

- **Exponential Growth:** Total electronics production surged from ₹2.4 lakh crore in 2014 to ₹9.8 lakh crore in 2024.
- **Mobile Manufacturing Success:** Reached ₹4.4 lakh crore, with ₹1.5 lakh crore in exports in 2024.
- **Local Production:** 98% of mobile phones used in India are domestically manufactured.

Tamil Nadu: A Leading Contributor

- **Major Hub:** 47 manufacturing units supported by MeitY under various schemes.
- **PLI 2.0 Impact:** Seven out of 27 approved units under PLI 2.0 are in Tamil Nadu.

Schemes Supporting Growth

- **SPECS (Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors):** ₹1,200 crore allocated for promoting electronic components.
- **M-SIPS (Modified Special Incentive Package Scheme):** ₹15,000 crore investment potential, backed by ₹1,500 crore from MeitY.
- **EMC Cluster (Electronic Manufacturing Clusters):** Located in Sriperumbudur, attracting ₹8,700 crore in investments and creating 36,300 jobs.
- **iPhone 16 Pro:** Manufactured in Tamil Nadu, showcasing India's capabilities in high-end electronics.

PLI 2.0 for IT Hardware

- **Launch Date:** May 29, 2023.
- **Incentives:** Offers a 5% incentive to eligible companies.
- **Covered Products:** Laptops, tablets, servers, all-in-one PCs, and ultra-small form factor devices.

Projected Outcomes

- **Investment:** ₹3,000 crore.
- **Production:** ₹3.5 lakh crore.
- **Jobs:** 47,000 across India.

Achievements as of December 2024

- **Investments:** ₹520 crore.
- **Production:** ₹10,000 crore.
- **Jobs Created:** 3,900.

California's Wildfire Defense: The Use of Pink Fire Retardant

As wildfires continue to rage across Southern California, authorities are **using planes to drop bright pink fire retardant to control the spread of the flames.** This long-standing method of firefighting is becoming increasingly scrutinized for its environmental impact. While pink fire retardant has been in use for decades, growing concerns over its effectiveness and harmful effects on the environment have sparked a debate. Below is an overview of what pink fire retardant is, how it works, and the environmental concerns associated with its widespread use.

Key Points about Pink Fire Retardant

What is it?

- **Fire retardant is a chemical mix used to slow or stop the spread of fires.**
- The most commonly used fire retardant in the U.S. is Phos-Chek, a slurry primarily composed of ammonium polyphosphate, which does not evaporate like water.
- The pink color is added to make it more visible against the landscape, helping firefighters to create fire lines and track the application area.

How Does it Work?

- The fire retardant is **sprayed ahead of the fire to coat vegetation and prevent oxygen from fueling the flames.**
- The pink color enhances visibility, helping firefighters to track the application of the retardant.

Environmental Concerns

- **Toxic Metals:** The fire retardant contains metals such as chromium and cadmium, which are toxic to both humans and the environment. These can accumulate in waterways, posing a threat to aquatic life.
- **Health Risks:** These metals are linked to cancer, kidney, and liver diseases in humans.
- **Water Pollution:** The chemicals from fire retardant can enter rivers and streams, polluting the water and harming wildlife.
- **Effectiveness:** Research has raised questions about the actual effectiveness of aerial retardants, as they depend on several environmental factors (e.g., weather, terrain, fuel type). Some experts argue that the windows for their effectiveness are narrowing due to climate change.

Usage and Impact

- Between 2009 and 2021, more than 440 million gallons of fire retardant were released on federal, state, and private lands in the U.S.
- A study by the University of Southern California (USC) found that over 400 tons of heavy metals were released into the environment during this period.

Debate and Dispute

- Environmentalists **raise concerns about the growing pollution due to fire retardant use.**
- The federal government and Perimeter Solutions (the company that manufactures Phos-Chek) dispute these claims, defending its safety and necessity in wildfire control.

Kappad and Chal Beaches Receive Prestigious Blue Flag Certification

Kerala's renowned **Kappad beach in Kozhikode and Chal beach in Kannur** have been awarded the prestigious Blue Flag certification by the **Denmark-based Foundation for Environmental Education (FEE)**. This certification recognizes beaches that meet high standards in environmental protection, safety, and sustainability. The Blue Flag status enhances Kerala's appeal as a sustainable tourism destination and serves as a global benchmark for eco-friendly tourism practices. This achievement marks a significant milestone in the state's efforts to preserve its natural beauty while promoting responsible tourism.

Key Points

- **Blue Flag Certification:** Both Kappad and Chal beaches received the Blue Flag certification from the Foundation for Environmental Education (FEE).

- **Environmental and Safety Standards:** The beaches were recognized for meeting 33 criteria, including environmental sustainability, safety, and hygiene practices.
- **Tourism Minister's Statement:** Tourism Minister P.A. Mohamed Riyas emphasized that this achievement boosts Kerala's global reputation as a sustainable tourism destination and attracts eco-conscious travelers.
- **Responsible Tourism Initiatives:** Both beaches have implemented eco-friendly initiatives and maintain hygienic, safe environments for tourists, setting a model for responsible tourism (RT).
- **Global Recognition:** The Blue Flag certification enhances the beaches' international appeal, drawing attention to Kerala's sustainable practices and commitment to preserving its natural beauty.

1. Blue Flag Certification

Definition

- The Blue Flag is an international eco-label awarded to beaches, marinas, and sustainable boating operators as a mark of their environmental excellence.

Certification Authority

- Awarded by the **Foundation for Environmental Education (FEE), based in Denmark.**
- **Established in 1985** to promote sustainable coastal development globally.

Eligibility and Criteria

- 33 stringent criteria are evaluated, grouped into four categories,
- Environmental Education and Information
- Bathing Water Quality
- Environmental Management
- Conservation and Safety Services

International Jury

- The decision to grant Blue Flag status is made by an international jury that includes representatives from,
- United Nations Environment Programme (**UNEP**)
- United Nations World Tourism Organisation (**UNWTO**)
- International Union for Conservation of Nature (**IUCN**)

Global Reach

- Over 4,000 beaches worldwide hold Blue Flag certification.
- Spain leads with 729 certified beaches.

India's Blue Flag Beaches

- India has 13 Blue Flag beaches, including Kappad and Chal, demonstrating its commitment to sustainable tourism.

Annual Updates

- Certification is updated annually; sites must consistently meet the criteria to retain status.

2. Beams (Beach Environment & Aesthetic Management Services)

Objective

- To develop world-class facilities at Indian beaches with a focus on environmental sustainability.
- To promote beach cleanliness, conservation, and sustainable tourism.

Launch and Implementation

- Launched under the Integrated Coastal Zone Management Project (ICZMP) by the Ministry of Environment, Forest, and Climate Change.

Key Features

- Focuses on reducing pollution, conserving coastal ecosystems, and enhancing the aesthetic appeal of beaches.
- Supports local communities by creating jobs in beach management and eco-tourism.
- Promotes the use of green technologies and renewable energy for beach infrastructure.

India's Blue Flag Beaches

Certified In	Beach Name	State Name
2020	Shivrajpur Beach	Dwarka, Gujarat
2020	Golden Beach	Puri, Odisha
2020	Ghoghla Beach	Diu, Gujarat
2020	Kasarkod Beach	Uttara Kannada, Karnataka
2020	Padubidri Beach	Udupi, Karnataka
2020	Rushikonda Beach	Visakhapatnam, Andhra Pradesh
2020	Radhanagar Beach	Havelock Island, Andaman & Nicobar Islands
2020	Kovalam Beach	Chennai, Tamil Nadu
2020	Eden Beach	Puducherry
2022	Minicoy Thundi Beach	Lakshadweep
2022	Kadmat Beach	Lakshadweep
2025	Kappad Beach	Kozhikode, Kerala
2025	Chal Beach	Kannur, Kerala

IMD Vision-2047: Zero Deaths, 100% Weather Detection

On January 14, 2025, during the **150th Foundation Day** celebrations of the India Meteorological Department (IMD), Prime Minister Narendra Modi unveiled the **'IMD Vision-2047'** document. This strategic roadmap outlines ambitious goals to enhance India's meteorological capabilities by 2047, coinciding with the nation's centenary of independence.

Key Objectives of IMD Vision-2047

Zero Disaster Deaths: The vision document sets a target of eliminating fatalities due to severe weather events by 2047. This objective emphasizes the importance of accurate and timely weather forecasts to enable effective disaster management and early public warnings.

Enhanced Forecast Accuracy: IMD aims to achieve zero-error weather forecasting for up to three days and 90% accuracy for five-day forecasts by 2047. For severe weather predictions extending up to seven days, the target is 80% accuracy, and 70% accuracy for forecasts up to ten days.

Comprehensive Weather Detection: The department plans to attain 100% detection of all types of severe weather events down to the village and household levels. This will involve augmenting meteorological observational systems nationwide, supported by advanced remote-sensing technologies, including improved radars and satellites.

Launch of 'Mission Mausam'

In conjunction with the Vision-2047 document, Prime Minister Modi introduced **'Mission Mausam,'** an initiative aimed at transforming India into a **'Weather-ready and Climate-smart'** nation. The mission focuses on developing cutting-edge weather surveillance technologies, implementing high-resolution atmospheric observations, deploying next-generation radars and satellites, and enhancing high-performance computing systems.

Historical Context and Achievements

Established in 1875, IMD has played a pivotal role in advancing meteorological science in India. Over the years, the department has significantly improved its forecasting capabilities, contributing to a substantial reduction in casualties from natural disasters. For instance, accurate cyclone warnings have led to a decrease in deaths from approximately 10,000 in 1999 to zero in recent years.

The department has also expanded its technological infrastructure, increasing the number of Doppler **Weather Radars from 15 in 2014 to 39 in 2023**, thereby enhancing land area coverage by **about 35%**. Additionally, the overall forecast accuracy has improved by **40% between 2014 and 2023**.

BANK MAHAPACK PLUS
For IBPS, SBI, SIDBI, RBI
Grade B, +5 More
Selection Ka Saathi

Global Contributions and Future Directions

IMD’s advancements have not only benefited India but have also provided critical information to neighboring countries, including Nepal, Bhutan, Bangladesh, and Sri Lanka, through systems like the Flash Flood Guidance System. Looking ahead, the department is committed to further enhancing its services to support disaster management, agriculture, aviation, and public safety, aligning with global efforts to address climate change and environmental challenges.

New Appointment Process for India’s Election Commissioners

The appointment procedure for India’s Chief Election Commissioner (CEC) and Election Commissioners (ECs) has undergone significant changes with the enactment of the **Chief Election Commissioner and Other Election Commissioners (Appointment, Conditions of Service and Term of Office) Act, 2023**. This legislation introduces a structured selection process aimed at enhancing transparency and accountability in the Election Commission of India.

Establishment of the Selection Committee

Under the new Act, a three-member Selection Committee is responsible for appointing the CEC and ECs. This committee comprises:

- The Prime Minister
- A Cabinet Minister nominated by the Prime Minister
- The Leader of the Opposition in the Lok Sabha

This composition is designed to balance executive influence with opposition input, promoting a more bipartisan approach to appointments.

Role of the Search Committee

Supporting the Selection Committee is a Search Committee tasked with identifying suitable candidates. **Chaired by the Union Minister for Law and Justice**, it includes two government officials of Secretary rank. The Search Committee shortlists a panel of candidates, from which the Selection Committee makes its appointments.

Inclusion of External Candidates

A notable feature of the Act is its provision to consider candidates from outside the existing pool of Election Commissioners. This allows for a broader selection, potentially bringing in individuals with diverse experiences and perspectives, thereby enriching the leadership of the Election Commission.

Supreme Court’s Influence

The legislative changes were influenced by a Supreme Court ruling that emphasized the need for a more transparent and balanced appointment process. The Court highlighted concerns over the executive’s exclusive power in appointments and recommended the inclusion of the Leader of the Opposition to ensure checks and balances.

Critiques and Concerns

Despite its intentions, the new appointment process has faced criticism. **Former Chief Election Commissioner O.P. Rawat** expressed concerns that allowing the government to nominate candidates could lead to partisan appointments, potentially eroding the Commission’s credibility. The exclusion of the Chief Justice of India from the Selection Committee has also been a point of contention, with critics arguing that it diminishes judicial oversight.

Implications for Electoral Governance

As the new appointment process is implemented, its impact on the **Election Commission’s independence** and effectiveness will be closely observed. The upcoming selection of the next **CEC, following Rajiv Kumar’s** tenure ending on February 18, 2025, will serve as a critical test for the new system. Stakeholders and observers will assess whether the changes enhance the Commission’s role in ensuring free and fair elections or if they introduce new challenges to its autonomy.

ISRO Successfully Docks Satellites, Enters Elite Club

The **Indian Space Research Organisation (ISRO)** has successfully docked two satellites in space, marking **India as the fourth country to achieve this feat after the United States, Russia, and China**. The docking process, part of the SpaDeX (Space Docking Exercise) mission, demonstrates ISRO’s capability to conduct autonomous satellite docking. This milestone is critical for future missions like Chandrayaan-4 and the planned Bharatiya Antariksh Station.

Key Details of the SpaDeX Mission

- **Launch Date:** December 30, 2024.
- **Satellites:** SDX01 (Chaser) and SDX02 (Target).
- **Objective:** Demonstrate autonomous docking technology.
- **Initial Distance:** 20 km between satellites, gradually reduced for docking.
- **Docking Milestone:** Achieved after overcoming technical issues and two postponements.

Timeline and Events

- **December 30, 2024:** Launch of SpaDeX satellites by PSLV.
- **January 7 and 9, 2025:** Scheduled docking postponed due to technical issues.
- **January 12, 2025:** Successful trial to reduce satellite distance to 3 meters.
- **January 16, 2025:** Final successful docking announced.

Future Applications

- **Chandrayaan-4:** Will involve docking and undocking of lunar modules.
- **Bharatiya Antariksh Station:** Docking capabilities essential for assembling modules in space by 2028.
- **Human Moon Mission:** Docking technology to support lunar exploration by 2040.

Docking Procedure

- **Gradual approach:** 20 km → 5 km → 1.5 km → 500 m → 225 m → 15 m → 3 m.
- Final docking achieved under controlled conditions.
- Post-docking tests: Power transfer between satellites and separation for independent payload operation.

PM Modi Commissions INS Surat, Nilgiri, and Vagsheer

On January 15, 2025, Prime Minister Narendra Modi commissioned three significant naval assets—INS Surat, INS Nilgiri, and INS Vagsheer—at the Mazagon Dock Shipbuilders Limited (MDL) in Mumbai. This event underscores India’s commitment to enhancing its maritime capabilities and achieving self-reliance in defense production.

INS Surat: Advanced Guided Missile Destroyer

INS Surat is the fourth and final ship of the **Project 15B**, also known as the **Visakhapatnam-class destroyers**. Designed by the Indian Navy’s Warship Design Bureau and constructed by MDL, this guided missile destroyer **measures 163 meters in length and 17 meters in width**, with a top speed of 30 knots. It boasts approximately 75% indigenous content and is equipped with state-of-the-art weaponry, including the indigenously developed Medium Range Surface-to-Air Missile (MRSAM), BrahMos supersonic cruise missiles, torpedo tube launchers, and anti-submarine indigenous rocket launchers. The ship also features modern stealth capabilities and can accommodate two helicopters.

INS Nilgiri: Stealth Frigate of Project 17A

INS Nilgiri is the lead ship of **Project 17A**, an initiative aimed at developing advanced stealth frigates for the Indian Navy. Designed by the Indian Navy’s Warship Design Bureau and built by MDL, the ship **measures 149 meters in length and 17.8 meters in breadth**, with a maximum speed of 28 knots. It features enhanced stealth capabilities, survivability, and seakeeping, and can accommodate two helicopters. The frigate is armed with eight BrahMos supersonic cruise missiles, 32 MRSAMs, torpedoes, Kavach chaff launchers, and a 76mm gun. Future upgrades are planned to include indigenously developed VL-SRSAM missiles.

INS Vagsheer: Final Submarine of Project 75

INS Vagsheer is the sixth and final submarine of the **Kalvari-class**, developed under Project 75 through an Indo-French collaboration between MDL and the French Naval Group. This 2,000-tonne submarine is versatile, capable of performing a range of missions including anti-surface warfare, anti-submarine warfare, long-range strikes, special operations, and intelligence gathering. The modular design of INS Vagsheer facilitates future upgrades, such as the integration of air-independent propulsion technology.

Strategic Significance and Future Outlook

The commissioning of these vessels represents a significant advancement in India’s indigenous shipbuilding capabilities and defense self-sufficiency. All three platforms were designed and built entirely in India, reflecting the nation’s growing competence in defense production. After rigorous trials, the assets are now fully operational, poised to strengthen the Navy’s maritime power. This development comes amid increasing Chinese presence in the Indian Ocean region, underscoring the importance of protecting maritime interests. Defense Minister Rajnath Singh highlighted the shifting global focus to the Indian Ocean, emphasizing India’s commitment to bolstering its naval power.

In addition to these developments, India’s defense ministry is expected to conclude a deal for three additional Scorpene submarines to be built in India during Prime Minister Modi’s anticipated visit to Paris next month. However, according to the Indian Navy, the first of these submarines is only likely to be commissioned by 2031.

Cabinet Nod for 8th Pay Commission Implementation

The Union Cabinet, chaired by Prime Minister Narendra Modi, has approved the **constitution of the 8th Central Pay Commission**, which will evaluate and recommend revised salary structures and allowances for central government employees and pensioners. This early initiative ensures readiness for implementing the recommendations by January 1, 2026. The commission’s scope encompasses over one crore employees and pensioners, aiming to address compensation, pensions, and welfare enhancements.

Key Highlights of the 8th Pay Commission

Approval and Formation

- The Union Cabinet has sanctioned the establishment of the 8th Pay Commission.
- Information and Broadcasting Minister Ashwini Vaishnaw announced that the commission’s Chairman and two members will be appointed soon.

Timeline and Implementation

- The 7th Pay Commission’s recommendations remain effective until 2026.
- The 8th Pay Commission’s recommendations will be prepared for implementation by January 1, 2026.

Scope and Expectation

- Revises basic pay, allowances, pensions, and benefits for central government employees and pensioners.
- Includes potential adjustments to Dearness Allowance (DA) and Dearness Relief (DR).

Historical Context

- Pay Commissions are established every 10 years to review compensation structures based on economic indicators like inflation.

- The 7th Pay Commission was constituted in 2014, submitted its report in 2015, and its recommendations were implemented in 2016.

Government Proactive Approach

- Early constitution ensures a seamless transition to revised pay structures.

Next Steps

- Further details, including membership and terms of reference, will be announced soon.

Key Expectations from the 8th Pay Commission

1. Salary Enhancements

- The minimum basic salary, increased from ₹7,000 to ₹18,000 by the 7th Pay Commission, may rise to ₹51,480 (approx. 186% increase).

2. Fitment Factor Adjustment

- The fitment factor, set at 2.57 by the 7th Pay Commission, is expected to increase to 2.86, ensuring higher pay hikes.

3. Allowance Revisions

- Comprehensive reviews of allowances like DA, HRA, and TA are anticipated to align with current inflation and economic conditions.

4. Pension Reforms

- Possible enhancements in pension amounts and measures to ensure timely disbursement.

5. Performance-Based Incentives

- Introduction of performance-linked pay structures to boost productivity and efficiency.

6. Health and Welfare Benefits

- Expansion of health insurance schemes and welfare measures for employees' well-being.

7th Central Pay Commission (7th CPC)

- The 7th CPC was established in 2014 to review and recommend revisions in pay, allowances, and pensions for central government employees and pensioners.
- Its recommendations, implemented from January 1, 2016, brought significant changes to the compensation structure.

Key Recommendations and Implementations

Revised Pay Structure

- Minimum Pay:** Increased from ₹7,000 to ₹18,000 per month.
- Maximum Pay:** Set at ₹2,50,000 per month for top positions like the Cabinet Secretary.

Pay Matrix Introduction

- Introduced a simplified pay matrix with 19 levels, ensuring uniformity in salary progression.

Allowances Rationalization

- Rationalized key allowances, including DA, HRA, and TA, to reflect economic conditions.

Pension Reforms

- Ensured a minimum pension of ₹9,000 per month, with higher pensions aligned with the pay matrix.

Performance-Linked Pay

- Proposed incentives for efficiency through performance-related pay.

Defense Forces Considerations

- Special recommendations for defense personnel addressing unique service conditions.

National Affairs

- Dr. S. Jaishankar, India's External Affairs Minister, will represent India at **Donald Trump's swearing-in** on January 20, 2025, marking his second term as the **47th President of the U.S.** This visit highlights the **strengthening of India-U.S. relations.** ([Click here to read article](#))
- India added a record **30 GW of renewable energy** capacity in 2024, a **113% increase** from 2023. This milestone supports India's goal of reaching **500 GW** by 2030, emphasizing its commitment to **clean energy** and reducing **carbon footprint.** ([Click here to read article](#))
- Piyush Goyal** launched the **Bharat Cleantech Manufacturing Platform** at the **Bharat Climate Forum 2025** in **New Delhi**, aiming to strengthen India's **cleantech** sectors like **solar, wind, hydrogen, and battery storage.** The platform fosters **collaboration, innovation, and financing** to make India a global sustainability leader. Goyal emphasized **self-sustaining growth** and the need for innovation and scaling in the sector. ([Click here to read article](#))
- The **INROAD** project, backed by ₹100 crore, aims to improve **natural rubber** quality in India's **North-East.** It focuses on **skill development** for rubber growers and building **model infrastructure**, with support from the **tyre industry**, highlighting collaboration between **agriculture** and **manufacturing.** ([Click here to read article](#))
- South Eastern Coalfields Limited (SECL)** has launched a **Post-Retirement Benefit (PRB) Cell** to enhance the welfare of its retired employees. This **single-window solution** consolidates post-retirement services, improving the experience for retirees. The initiative aligns with **Mission Sambandh**, SECL's program to foster better **communication** and **stakeholder engagement.** ([Click here to read article](#))

- On **January 14, 2025**, **Piyush Goyal**, Union Minister of Commerce, inaugurated the **National Turmeric Board** in **New Delhi** and appointed **Shri Palle Ganga Reddy** as its first **Chairperson**. Headquartered in **Nizamabad, Telangana**, the Board will support **turmeric farmers** across **20 states**, focusing on **farmer welfare, production enhancement, and research** on new varieties. It will also promote **value addition** for global markets and highlight turmeric's **health benefits**, with a focus on **Andhra Pradesh and Telangana**. ([Click here to read article](#))
- Union Minister **Shri Piyush Goyal** launched the **Bharat Cleantech Manufacturing Platform** on January 11, 2025, at the **Bharat Climate Forum**. The initiative aims to strengthen India's **cleantech value chains** in **solar, wind, hydrogen, and battery storage** sectors. Goyal emphasized the importance of **innovation, self-reliance, and reducing dependence on government support**, encouraging long-term **growth** in the **clean energy** industry. ([Click here to read article](#))
- Prime Minister **Narendra Modi** inaugurated the **Sri Sri Radha Madanmohanji Temple** in **Kharghar, Navi Mumbai** on January 15, 2025. Built over 12 years at a cost of ₹170 crore, it is **Asia's second-largest ISKCON temple**. The temple embodies **spirituality and knowledge**, featuring various facilities aligned with **ISKCON's mission**. The event was attended by **Maharashtra CM Devendra Fadnavis, Deputy CM Eknath Shinde, Governor CP Radhakrishnan, and MP Hema Malini**. ([Click here to read article](#))
- India's **Railway Minister, Ashwini Vaishnaw**, announced the development of the **world's most powerful hydrogen fuel-run train engine** by **Indian Railways** during the **18th Pravasi Bharatiya Divas**. Built with **indigenous technology**, this achievement sets a new benchmark in **green energy and sustainable development** in the railway sector. ([Click here to read article](#))
- Justice **Krishnan Vinod Chandran** was sworn in as the newest judge of the Supreme Court of India on January 16, 2025. Chief Justice of India **Sanjiv Khanna** administered the oath of office. With this appointment, the Supreme Court's judicial strength has risen to 33, just one short of its full sanctioned capacity. ([Click here to read article](#))
- The 9th Foundation Day of Startup India celebrated India's progress as a global innovation hub. Union Minister **Piyush Goyal** launched the **PRABHAAV Factbook** and **Bharat Startup Challenge**, highlighting the country's startup growth, with **1.59 lakh startups, 76 IPOs** in 2024, and **₹13 trillion** in government funding. ([Click here to read article](#))
- The world's first **Mahamrityunjaya Yantra**, measuring 52 feet, has been installed at **Tapovan Ashram** in **Prayagraj**, a sacred site of the **Maha Kumbh**. This **spiritual marvel**, known as the **Victory over Death Yantra**, helps devotees overcome **fear of death, disease, and danger**, while enhancing **courage, positivity, and connecting them to Lord Shiva's higher energy**. ([Click here to read article](#))
- On **January 17, 2025**, Prime Minister **Narendra Modi** inaugurated the **Bharat Mobility Global Expo 2025** at **Bharat Mandapam, New Delhi**. India's largest **mobility expo**, running from **January 17-22, 2025**, spans three venues: **Bharat Mandapam, Yashobhoomi, and India Expo Centre & Mart**. The event features **9+ shows, 20+ conferences, and state sessions** on regional mobility policies, promoting industry-government collaboration. ([Click here to read article](#))
- **India's textile industry** has long been a cornerstone of its economy, renowned for its **rich heritage** and diverse products. In recent years, the sector has experienced significant growth, positioning India as a **formidable player in the global textile market**. ([Click here to read article](#))
- On **January 16, 2025**, **Startup India** celebrated its **9th anniversary** as **National Startup Day**, marking India's emergence as the **3rd largest startup ecosystem** globally with over **1.59 lakh startups**. Launched in **2016**, the initiative has fostered growth in **fintech, edtech, health-tech, and e-commerce**, driving India's transformation into a global **hub for innovation and entrepreneurship**. ([Click here to read article](#))
- **Kalagram**, located in **Prayagraj** during **Mahakumbh 2025**, is a cultural hub created by the **Ministry of Culture** to showcase India's rich heritage. It offers an immersive experience with **crafts, cuisine, and cultural performances**, reflecting India's **diverse cultural legacy** and spiritual significance. Kalagram serves as a **cultural jewel** that celebrates the essence of **Bharat**. ([Click here to read article](#))
- On **January 15, 2025**, coinciding with **Army Day**, the government launched the **"Bharat Ranbhoomi Darshan"** app and website in **Pune, Maharashtra**. Developed by the **Ministries of Defence, Tourism, and the Indian Army**, the app allows civilians to visit key **battlefield locations** from the **1962, 1971, and 1999 wars**, as well as significant conflict zones like **Siachen base camp and Galwan valley**. This initiative aims to transform border regions into **tourist hubs**, fostering a deeper connection to India's **military history** and the sacrifices of its soldiers. ([Click here to read article](#))
- On January 16, 2025, the Lokpal of India celebrated its inaugural **Foundation Day** at the **Manekshaw Centre in New Delhi**, marking 11 years since its establishment on January 16, 2014, under the **Lokpal and Lokayuktas Act, 2013**. ([Click here to read article](#))
- On **January 17, 2025**, the **Department of Telecommunications (DoT)** launched **National Broadband Mission 2.0 (NBM 2.0)** and the **Sanchar Saathi mobile app**. Building on **NBM 1.0**, NBM 2.0 aims to connect **1.7 lakh villages**, ensuring **60%** of rural households have access to **100 Mbps** broadband. This initiative is designed to bridge the **digital divide** and promote **inclusive growth** across India. ([Click here to read article](#))

States in the News

- The **Adani Group** will invest ₹75,000 crore in **Chhattisgarh**, with ₹60,000 crore dedicated to expanding **energy** operations, including a 6,120 MW increase in power generation across **Raipur**, **Korba**, and **Raigarh**. This move strengthens the state's energy role. ([Click here to read article](#))
- On January 13, 2025, **PM Modi** inaugurated the **Z-Morh Tunnel** in **Jammu and Kashmir**, enhancing **connectivity** between **Srinagar** and **Ladakh**. The 6.5 km, bi-directional tunnel, at 8,652 feet, bypasses avalanche-prone areas, reducing travel time from 2+ hours to 15 minutes. The ₹2,400 crore project, started in 2015, was led by **NHAI**. ([Click here to read article](#))
- **Dr. Jitendra Singh** announced the establishment of a **Regional Meteorological Centre** in **Jammu** during the **150th anniversary** of the **India Meteorological Department (IMD)**. This initiative aims to enhance **weather forecasting**, **disaster preparedness**, and **climate resilience** in **Jammu & Kashmir**. The event highlighted **IMD's** journey and **India's** leadership in **climate action** under **PM Modi**. ([Click here to read article](#))
- On **January 10, 2025**, **UP CM Yogi Adityanath** launched 'Kumbhvani' (103.5 MHz), an FM channel by **All India Radio**, to enhance the **Maha Kumbh 2025** experience. The channel broadcasts from **5:55 AM to 10:05 PM** daily, from **January 10 to February 26, 2025**. **Dr. L. Murugan** attended online. ([Click here to read article](#))
- On **January 8, 2025**, **PM Modi** laid the foundation for the **NTPC Green Energy Limited (NGEL) Green Hydrogen Hub** in **Pudimadaka**, near **Visakhapatnam**. A collaboration between **NGEL** and **NREDCAP**, it is the first hub under **India's National Green Hydrogen Mission**, boosting the country's commitment to **sustainable energy** and the **green hydrogen economy**. ([Click here to read article](#))
