

Seating Arrangement for SBI Clerk Mains 2025

Directions (1-4): Read the given information carefully and answer the questions based on it:

A certain number of persons sit in a row facing north. The known persons like different colors. On counting from left, the persons at even positions are managers and the persons at odd positions are associates.

Four persons are in between A and the one who likes red. G sits third to the left of A. The one who likes blue sits exactly between G and the one who likes red. Four persons are in between C and the one who likes blue. The one who likes pink sits immediate right of C. D sits three persons sit to the right of the one who likes pink. The number of persons sit to the right of D is equal to the square root of the number of persons sit between D and the one who likes red. T sits sixth to the left of H who sits adjacent to C. H likes pink and sits immediate right of the one who likes yellow. No one sits to the left of B who sits adjacent to T. The one who likes black sits fourth from right end. The one who likes grey sits second to the right of B and third to the left of the one who likes white.

Q1. How many associates sit to the right of the one who likes white?

- (a) Three
- (b) Four
- (c) Five
- (d) Six
- (e) More than six

Q2. What is the position of C with respect to the one who likes grey?

- (a) 5th to the right
- (b) 7th to the right
- (c) 8th to the left
- (d) Immediate right
- (e) 4th to the right

Q3. Which of the following statement is correct?

- I. The one who sits 7th to the right of B is manager.
 - II. Four associates sit between B and the one who likes black.
 - III. H is manager and sits second to the right of A
- (a) Only II
 - (b) Only III
 - (c) Only I and II
 - (d) Only I and III
 - (e) All I, II and III

Q4. Choose the incorrect combination.

- (a) G – grey - associate
- (b) D – black - associate
- (c) A – white - manager
- (d) T – blue - manager
- (e) B – yellow - associate

Directions (5-8): Read the following information carefully and answer the following

Eight persons—A, B, C, D, E, F, G and H—are sitting in a circular arrangement, all facing the center. Each of them has a unique card number ranging from 2 to 9. Each person holds a distinct card number ranging from 2 to 9.

Note: The difference between the card numbers of persons sitting adjacent to each other is more than 1.

C sits sixth to the right of the person whose card number is a prime number. Two persons sit between the person who sits second to the right of C and G. The person whose card number is a multiple of 5 is an immediate neighbour of G. F sits third to the right of the person whose card number is a multiple of 5. The person who sits opposite to the person whose card number is 5 has card number which is two less than card number G. The person whose card number is 8 sits second to the left of F. One person sits between the person who has 6 card number and H. A is an immediate neighbour of the person who has card number 6 and has card number that is a multiple of 3. Card number of B is not 2, 5 and 8. The person who sits second to the left of A has card number 4. The difference between card number of C and A is equal to card number of B. D is an immediate neighbour of the person who has card number 3. D is not an immediate neighbour of A and H. D doesn't sit opposite to H and F. E is an immediate neighbour of G.

Q5. Who among the following person sits fourth to the right of the person who has card number 4?

- (a) H
- (b) B
- (c) The person who has card number 5
- (d) D
- (e) None of these

Q6. What is the sum of the card numbers of C, G and H?

- (a) 25
- (b) 20
- (c) 23
- (d) 21
- (e) None of these

Q7. How many persons sit between the person who has card number 9 and E when counting in the anti-clockwise direction from E?

- (a) Three
- (b) Four
- (c) Five
- (d) One
- (e) Two

Q8. Which of the following pairs are adjacent and have card numbers differing less than 4?

- (a) A and B
- (b) E and G
- (c) C and D
- (d) H and A
- (e) None of these

Directions (9-13): Study the following information carefully and answer the questions given below.

Fourteen persons B, C, D, E, F, G, H, I, J, K, L, M, N and O sit around two tables—one circular (referred to as a rope-shaped table) inscribed within a square-shaped table. Four persons sit at the corners of the square table, while four sit in the middle of the sides. The persons who sit at corners face inside and the persons who sit on the middle of the sides of table face outside. Six persons sit at the circular rope-shaped table at a distance of multiples of 3 between them consecutively such as 3m, 6m, 9m and so on. The persons who sit on the circular rope shaped table face inside.

F sits 9m to the left of J in a circular shaped table. There is distance of 27m between J and G when counting from one of the sides from J. O sits third to the right of I. Two persons sit between O and N. L sits immediately to the right of C. N doesn't sit on the middle of the sides of the table. G is an immediate neighbour M. There is a distance of 42m between G and B. There is a distance of more than 12m between B and R when counting from both sides of B. There is a distance of more than 15m between R and G when counting from both sides of R. H sits third to the left of D. E sits third to the left of L. D is not an immediate neighbour of O.

Q9. What is the position of D with respect of C?

- (a) Fifth to the left
- (b) Fifth to the right
- (c) Sixth to the right
- (d) Sixth to the left
- (e) Second to the right

Q10. If E and R interchanged their places then who sits 45m away from E when counting from one of the sides from E?

- (a) B
- (b) F
- (c) H
- (d) R
- (e) M

Q11. Which of the following pairs of persons are immediate neighbors?

- (a) E and O
- (b) R and G
- (c) F and J
- (d) B and M
- (e) J and B

Q12. Four of the following five form a group based on their seating arrangement. Which one does not belong to this group?

- (a) B
- (b) O
- (c) I
- (d) N
- (e) C

Q13. Which of the following statements is true?

- I. F sits at a distance of 9m from M when counting right of M.
 - II. L sits at one of the corners of the square-shaped table.
 - III. Four persons sit between H and C when counting from left of C.
- (a) Only I
 - (b) Both I and II
 - (c) Both II and III
 - (d) Only III
 - (e) Only II

Directions (14-18): Read the given information carefully and answer the questions based on it:

A certain number of persons are seated in a row facing north. Some of the persons like different colours. The total number of persons in the row is four times the number of persons sitting to the right of the one who likes white. The person who likes blue sits second to the left of N who sits 3rd to the right of the one who likes red. Two persons sit between O and M who sits sixth to the right of N. The person who likes brown sits exactly between P and Q who is adjacent to O. Four persons sit between R and S. O sits third from one end and is two places to the left of the one who likes purple. The one who likes orange sits second from the right end. Two persons sit between O and the one who likes brown. The one who likes green sits exactly between P and S. The one who likes white sits immediate right of M. The one who likes grey sits third to the left of T who sits third to the left of the one who likes purple. Neither N nor immediate neighbour of N likes green.

Q14. Who sits second to the left of the one who sits 3rd to the right of S?

- (a) The person who likes blue
- (b) The person who likes grey
- (c) O
- (d) The person who likes white
- (e) R

Q15. How many persons are seated to the left of M?

- (a) 14
- (b) 15
- (c) 13
- (d) 10
- (e) 12

Q16. Which colour does the person who sits immediate left of R likes?

- (a) Green
- (b) Grey
- (c) Purple
- (d) Orange
- (e) Blue

Q17. Four of the following five are alike in a certain way and hence form a group. Which of the following does not belong to that group?

- (a) Q, M
- (b) R, P
- (c) S, The one who likes white
- (d) O, M
- (e) T, The one who likes grey

Q18. How many persons sit between O and the person who likes blue?

- (a) 11
- (b) 12
- (c) 10
- (d) 9
- (e) 14

Directions (19-21): Study the following information carefully and answer the given questions below:

Eight persons sit in two parallel rows – A, B, C and D sit in Row-1 and face north while P, Q, R and S sit in row 2 and face south, but not necessarily in same order. Each person has a different number of chocolates with them. The sum of total number of chocolates in row 1 is 139 and the sum of total number of chocolates in row 2 is 136.

The person who sits opposite to B sits second to the right of the person who has 22 chocolates. Only one person sits between the one who has 16 chocolates and B. S is immediate neighbour of the one who has 22 chocolates. S sits second to the left of R who sits opposite to the one who has 64 Chocolates. One of the immediate neighbours of R has 29 chocolates. The sum of number of chocolates Q and R have is 70. The one who sits immediately to the right of B has 34 chocolates. B doesn't sit opposite to Q. More than one person sits between D and A. D doesn't sit opposite to Q.

Q19. Four of the following five are alike in a certain way and form a group. Which of the following does not belong to the group?

- (a) Q
- (b) B
- (c) R
- (d) C
- (e) A

Q20. What is the sum of the number of chocolates S, B and C have?

- (a) 86
- (b) 91
- (c) 98
- (d) 81
- (e) 96

Q21. If R is related to B and in the same way S is related to A then who among the following is related to C?

- (a) D
- (b) Q
- (c) P
- (d) The one who has 16 chocolates
- (e) The one who has 37 chocolates

Directions (22-25): Study the following information carefully and answer the questions.

A certain number of persons sit in a row and face north. F sits fourth to the right of C. Two persons sit between F and K. The number of persons sit between H and F is thrice the number of persons sit between K and E. Five persons sit between C and H and H doesn't sit to the right of F. E doesn't sit to the left of F. Two persons sit between R and M who sits second from one of the extreme ends of the row. O sits sixth to the right of K. More than three persons sit between K and B. B sits exactly between H and C. R sits immediately to the right of E. As many persons sit to the right of E as to the left of B.

Q22. Who among the following sits sixth to the right of the person who sits tenth to the right of B?

- (a) R
- (b) M
- (c) K
- (d) O
- (e) None of these

Q23. How many persons sit between E and H?

- (a) Nineteen
- (b) Twelve
- (c) As many persons sit between C and M
- (d) As many persons sit between B and K
- (e) Sixteen

Q24. What is the difference between total numbers of persons sit in this row and total number of persons sit between F and E?

- (a) 18
- (b) 19
- (c) 25
- (d) 20
- (e) None of these

Q25. Which of the following statements is/are true?

- I. E sits exactly between K and M
- II. Ten persons sit between C and O.
- III. B sits eight to the left of K.
- (a) Only I
- (b) Only II
- (c) Only III
- (d) Both II and III
- (e) Both I and III

Directions (26-30): Study the following information carefully and answer the questions.

Six persons — A, B, C, D, E, and F — are seated in a circular arrangement and face inside. Each of them has a pet: Dog, Cat, Rabbit, Fish, Turtle, and Parrot. All the information is not necessarily in the same order.

Only one person sits between the person who has Parrot and D. The person who has Fish is one place away from D. B sits second to the left of the person who has Fish. The person who has Cat sits second to the right of the person who has Fish. E and F doesn't have a Parrot. The number of persons sits between B and D is same as the number of persons sit between the person who has Cat and E. The person who has turtle sits second to the right F. The person who has Dog sits second to the right of the person who has Parrot. The persons who have Dog and Cat are not immediate neighbours. C doesn't have a fish. E doesn't have a Rabbit

Q26. What is the position of the person who has Rabbit with respect to A?

- (a) Fifth to the right
- (b) Fifth to the left
- (c) Immediate left
- (d) Fourth to the right
- (e) Fourth to the left

Q27. Which among the following pair of persons sit opposite to each other?

- (a) The person who has Fish and F
- (b) The person who has Turtle and E
- (c) D and F
- (d) The persons who have Dog and Cat
- (e) None of these

Q28. How many persons sit between B and the Dog owner when counted anti-clockwise from B?

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) None

Q29. Who among the following person sits fourth to left of the person who sits immediately to the right of F?

- (a) The person who has Parrot
- (b) The person who has Fish
- (c) A
- (d) E
- (e) None of these

Q30. If all the person sits according to alphabetical order from A in anti - clockwise direction then position of how many persons remains unchanged (excluding A)?

- (a) Two
- (b) Three
- (c) Four
- (d) Five
- (e) None

Directions (31-35): Study the following information carefully to answer the given questions:

Nine friends A, B, C, D, E, F, G, H and I sit in a straight row, but not necessarily in the same order. Some of them face North and some of them face South. D sits fourth to the right of C. A sits exactly between H and G who sits second to the left of E. D sits immediately to the left of E. Both C and E doesn't sit at the extreme ends of the row. I sits immediately to the right of G. D sits third to the right of B and both of them face the same direction. C and B are not immediate neighbours. H sits at one of the extreme ends. F and G face the same direction but opposite to A. The persons who sit at extreme ends face the same direction. Less than two persons sit between A and H. A and I face the opposite direction. H doesn't face north.

Q31. Who among the following sits third to the right of the person who sits immediately to the right of B?

- (a) A
- (b) G
- (c) I
- (d) D
- (e) C

Q32. How many persons who face south, sit between E and H?

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) Five

Q33. Four of the following five are similar in a certain manner and form a group. Which one does not belong to the group?

- (a) A and G
- (b) D and E
- (c) B and A
- (d) F and H
- (e) D and C

Q34. If I and E interchange their positions, then who sits fifth to the left of E?

- (a) C
- (b) F
- (c) D
- (d) A
- (e) B

Q35. What is the position of the person who sits sixth to the right of F with respect to B?

- (a) Fifth to the left
- (b) Seventh to the left
- (c) Seventh to the right
- (d) Fifth to the right
- (e) None of these

Directions (36-40): Study the following arrangement carefully and answer the questions given below:

Eight persons - A, B, C, D, E, F, G and H - sit around a square-shaped table. Four persons sit at the corners face inside and the remaining four persons sit in the middle of the sides face outside. Each of the person who sits at the corners has a different favourite flower: Lily, Rose, Tulip, and Carnation. Each of the person who sits at the middle of the sides of the table has a different favourite fruit: Mango, Banana, Apple and Guava. All the information is not necessarily in the same order.

H doesn't sit at corners. G sits third to the left of C. One person sits between the one who likes Guava and C. The one who likes Guava sits immediately to the right of A. B sits opposite to G. The one who likes Carnation sits second to the right of A. E sits third to the left of the one who likes Rose. Two persons sit between the ones who like Banana and Carnation. A is not an immediate neighbour of the one who likes Banana. The one who likes Banana sits opposite to E. Two persons sit between the ones who like Rose and Apple. D sits third to the right of the one who likes Apple. G doesn't like Lily. H doesn't like Banana and Mango.

Q36. Who among the following persons sits opposite to the person who likes Apple?

- (a) The one who likes Guava
- (b) The one who likes Mango
- (c) F
- (d) D
- (e) None of these

Q37. Which of the following statement is correct?

- (a) Three persons sit between the ones who like carnation and Mango.
- (b) D is not an immediate neighbour of the one who likes Banana.
- (c) The one who likes Lily sits fourth to the right of C.
- (d) E and G are immediate neighbours
- (e) D face inside.

Q38. Who among the following persons sits fifth to the left of D?

- (a) C
- (b) The one who likes Mango
- (c) The one who sits second to the right of the one who likes Guava.
- (d) The one who likes Tulip
- (e) None of these

Q39. Four of the following five are in the same group, who among the following does not belong to that group?

- (a) H
- (b) G
- (c) F
- (d) E
- (e) C

Q40. What is the position of the person who likes Carnation with respect to the person who likes Mango?

- (a) Immediate left
- (b) Sixth to the left
- (c) Fifth to the right
- (d) Seventh to the left
- (e) Seventh to the right

Directions (41-44): Study the following information carefully and answer the questions given below:

A certain number of persons are seated in a row facing north and they are from different cities. E sits sixth to the right of the person who is from Pune. Two persons sit between the ones who are from Mumbai and Kanpur. The one who is from Kanpur sits immediately to the right of S. Two persons sit between the one who is from Kanpur and E. W sits fourth from left of S. Three persons sit between P and W who is from Delhi. P sits third from one of the ends. Q is from Lucknow. The number of persons sit between P and E is same as the number of persons sit between the ones who are from Mumbai and Lucknow. The one who is from Lucknow sits to the right of the one who is from Mumbai. Q sits third to the left of V who sits at one of the extreme ends. The one who sits immediate left of O is from Kolkata. O sits third to the left of Q and is from Kanpur. The one who sits sixth to the right of O is from Banaras.

Q41. Which of the following combination is correct?

- (a) S - Mumbai
- (b) S - Pune
- (c) V - Banaras
- (d) E - Pune
- (e) E - Banaras

Q42. How many persons sit in this row?

- (a) 20
- (b) 25
- (c) 18
- (d) 19
- (e) None of these

Q43. What is the position of E with respect to the person from Banaras?

- (a) Ninth to the right
- (b) Eighth to the left
- (c) Thirteenth to the left
- (d) Ninth to the left
- (e) Tenth to the left

Q44. Which of the following statements is/are false?

- I. O sits to the right of V
 - II. Three persons sit between E and S.
 - III. P is not from Pune
- (a) Only I
 - (b) Only II
 - (c) Only III
 - (d) Only I and II
 - (e) All I, II and III
