

Assam Apex Bank Reasoning Memory Based Paper 28 June 2026-exam

Q.1 Statements: $P > T \geq M = R < K \leq H > Q$

Conclusions:

I. $P > R$

II. $M < H$

In this question, the relationship between different elements is shown in the statements. The statements are followed by two conclusions. Study the conclusions based on the given statements and select the appropriate answer:

- A. If only conclusion I is true
- B. If only conclusion II is true
- C. If either conclusion I or II is true
- D. If both conclusions I and II are true
- E. If neither conclusion I nor II is true

Answer: D

Sol: I. $P > R$ (True)
II. $M < H$ (True)

Q.2 Statements: $W > G \leq T < B = N \geq Q$

Conclusions:

I. $W > B$

II. $T \leq N$

In this question, the relationship between different elements is shown in the statements. The statements are followed by two conclusions. Study the conclusions based on the given statements and select the appropriate answer:

- A. If only conclusion I is true
- B. If only conclusion II is true
- C. If either conclusion I or II is true
- D. If both conclusions I and II are true
- E. If neither conclusion I nor II is true

Answer: E

Sol: I. $W > B$ (False)
II. $T \leq N$ (False)

Q.3 Statements: $Q \geq R > T; T = Z \leq W; W < M$

Conclusions:

I. $R > Z$

II. $T < M$

In this question, the relationship between different element is shown in the statements. The statements are followed by two conclusions. Give answer:

- A. If only conclusion I is true
- B. If only conclusion II is true
- C. If either conclusion I or II is true
- D. If neither conclusion I nor II is true
- E. If both conclusions I and II are true

Answer: E

Sol: I. $R > Z$ (True)
II. $T < M$ (True)

Q.4 Statements: All Flower are Tree.

No Tree is Bush.

Only a few Bush are Leaves.

Conclusions: I. Some Bush are not Leaves.

II. Some Tree are not Leaves.

Assess the statements given below and evaluate the conclusions that follow. Assume the statements are accurate despite potential contradictions with general knowledge. Choose the appropriate option based on which conclusion(s) logically follows from the statements.

- A. If only conclusion I follows.
- B. If only conclusion II follows.
- C. If either conclusion I or II follows.
- D. If neither conclusion I nor II follows.
- E. If both conclusions I and II follow.

Answer: A

Sol: I follow because 'only a few Bush is leaves' is given so some bush are not leaves holds true
II does not follow because there is no direct relation between given elements

Q.5 Statements: Only a few glass is wall.

Some wall is wire.

All wire is cash.

Conclusions: I. At least some cash is wall.

II. All glass is cash.

In each of the questions below, some statements are given followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

- A. If only II follows
- B. If only I follows
- C. If neither I nor II follows
- D. If either I or II follows
- E. If both I and II follow

Answer: B

Sol:

- I. Follows – because the part of cash which is wire is related to wall.
- II. Not follows – there is no direct relation between glass and cash. Hence, their definite relation will not follow.
